Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Receipt is acknowledged of the response filed on June 19, 2003.
2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 17-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Merkle '481 in view of Merkle '154.

See paragraph 6 in paper number 6, mailed 3/3/2003.

5. Claims 24-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Merkle '481, in view of Merkle '154 and GB 2,318,851.

Note the previous discussion in paragraph 6.

The claimed invention differs from Merkle '481, as modified, only in the inclusion of an accumulator connected to the bellows.

UK '851 shows accumulator 12 connected to bellows 2, 3.

Art Unit: 3683

It would have been obvious to one of ordinary skill in the art to have attached an accumulator to Merkle '481, as modified in view of the teaching of UK '851 as an accessory feature as taught by UK '851.

Re-claims 25-31, the recited features are readily apparent in the applied references.

6. Applicant's arguments filed 6/19/2003 have been fully considered but they are not persuasive. Applicant argues that Merkle '481 fails to show communication between the gas chamber and hydraulic accumulator. However, the claims recite "configured to communicate". The accumulator of Merkle '481 is configured to communicate mechanical vibrations from the air spring.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication should be directed to Matthew Graham at telephone number (703) 308-1113.
